Pre-Written Telegram Message

Recommendations on How to Maximize the Impact of Your KYC Approval

1

Share the announcement via your official Twitter Account. A pre-written tweet is included for your use. Choose from either the Banner ad or one of the video files and include this with the pre-written verbiage.

2

Share the announcement via your official Telegram channel. A pre-written Telegram message is included for your use. We recommend you proudly share why you personally chose to go through this process as well!

3

Publish an announcement on your official Medium account. The included pre-written article is 100% ready to go. Simply copy/paste the pre-written article in Medium and publish from your official account! This has already been customized for your project with appropriate project names/images/links.

4

Use the provided Assure brand assets, logo files, etc & proudly show that you have been KYC approved on your website. These brand assets are provided to you to use in any other media/communication outlets that you use as part of your project.

ASSURE
DEFI

Thank you for helping Assure Defi continue to legitimise the blockchain.
